

INDIANA'S TELEPHONE PRIVACY LAW was established to eliminate unwanted telephone calls. A lot of these calls are from Credit Card companies which are mostly owned by large banks. These large banks also own other smaller companies and by overturning this law will give permission to probably hundreds of these other smaller companies to call you just because you own one (1) credit card. Also, by allowing this organization to do it, you will be opening the door for other organizations to try to justify doing it. PLEASE DO NOT ALLOW THIS TO HAPPEN!!!
